## SUMMARY

---

Data Analyst with experience solving business problems using data, focusing on user behavior, performance metrics, and decision-making. Skilled in SQL, Python, and data visualization to analyze trends, identify root causes, and deliver actionable insights. Experienced in working across descriptive, diagnostic, and prescriptive analytics to support product, growth, and business teams in driving measurable impact.

## SKILLS

---

**Machine Learning & Modeling** Feature Engineering, Feature Selection, Regression Models, Tree-based Models (XGBoost, Random Forest, LightGBM), Classification, Predictive Modeling, Model Evaluation, Cross-Validation, Hyperparameter Tuning

**Programming & Data Handling** Python (Pandas, NumPy, Scikit-learn), SQL (Joins, CTEs, Window Functions), Data Cleaning, Data Transformation, Exploratory Data Analysis

**Advanced Analytics** Time-Series Analysis, Statistical Modeling, Probability & Statistics, Hypothesis Testing, Error Analysis, Residual Analysis

**Data Systems & Pipelines** Data Processing, ETL Concepts, Data Pipelines, Large-scale Data Handling, Structured Data Workflows

**Model Performance & Optimization** Model Validation, Performance Tuning, Bias-Variance Optimization, Feature Importance Analysis, Handling Imbalanced Data

**Business & Problem Solving** Problem Decomposition, Analytical Thinking, Data-driven Decision Making, Business Impact Analysis, Cross-functional Collaboration **Languages** English, Tamil, Hindi

## CERTIFICATIONS

---

[OCI 2025 Certified Data Science Professional](#), Oracle

[OCI 2025 Certified Gen AI Professional](#), Oracle

[OCI 2025 Certified AI Foundations Associate](#), Oracle

[Introduction to SQL](#), DataCamp

[Introduction to Python](#), DataCamp

[Data Storytelling](#), DataCamp

[5-Day AI Agents Intensive Workshop](#), Google

[Mckinsey Forward Learner](#), Mckinsey

## EDUCATION

---

**PGP in Data Science & Business Analytics**, Great Lakes Executive Learning & The University of Texas Jul '25 — Jul '26  
at Austin, McCombs School of Business (GPA: 8.85 / 10)

**MBA in Finance & HR**, M.O.P Vaishnav College for Women, University of Madras (GPA: 7.79 / 10) Apr '21 — Apr '23

**B.COM in General**, C.T.T.E College for Women, University of Madras (GPA: 8.42 / 10) Nov '18 — Jul '21

**Higher Secondary in Commerce with Business Mathematics**, Kaligi Montford (GPA: 9.05 / 10) May '16 — May '17

**Secondary School in CBSE**, Vivekananda Vidyalaya (GPA: 9.05 / 10) May '14 — May '15

**Prepared for SSC CGL Exam**, Varanda Race Institute Aug '23 — May '26

## EXPERIENCE

---

### Risk Dashboard Developer Intern

Jan '26 — Present

Remote Zetheta Algorithms Pvt Ltd

Worked on quantitative finance projects including Systemic Risk Network, Quantitative Risk Dashboard, Fear-Greed

Meter, and Oil Shock Tracing.

- Designed core modules for risk analytics, market sentiment measurement, and shock propagation analysis, followed by visualization and dashboard integration
- Conducted testing, validation, and documentation to ensure reliability of financial risk indicators and analytical outputs.

#### **Data Science Intern**

Dec '25 — Jan '26

Remote EVOASTRA VENTURES PVT LTD

Performed ethical web scraping and data collection to build job-market datasets

- Cleaned, validated, and structured raw data using Python and Pandas
- Conducted EDA to identify hiring trends across roles, skills, and locations.

#### **Data Analyst Intern**

Aug '25 — Sep '25

Remote ElevateLabs-(Best Performer)

Completed 8 end-to-end data analytics projects using Excel, SQL, Python, and Power BI

- Conducted real-world case study using primary survey data, from questionnaire design to insight reporting
- Recognized as Best Performer for analytical quality and consistency.

#### **AWARDS**

---

##### **Research Paper Presentation - Impact of Virtual Influencers in Marketing**

Aug '23

Ethiraj College for Women

Research Paper Presentation - Impact of Virtual Influencers in Marketing Ethiraj College for Women (2023) 2nd Place

#### **PROJECTS**

---

##### **INN Hotels – Booking & Demand Analysis**, University of Texas at Austin

- Engineered features from booking behavior data and built predictive models to estimate cancellation probability, enabling targeted retention strategies and improving decision-making.

##### **Customer Churn Analysis & Retention Strategy**, University of Texas at Austin

- Identified key factors driving customer churn through behavioral and usage analysis, and recommended data-driven retention strategies to improve engagement and reduce churn risk.

##### **Water Quality Prediction (EY Hackathon)**

- Built ensemble ML models (LightGBM, XGBoost) with advanced feature engineering on geospatial and temporal data, achieving  $R^2 \sim 0.82$  and demonstrating strong generalization across regions.

##### **Passenger Satisfaction (Shinkansen Hackathon)**, University of Texas at Austin

- Engineered advanced features and built ensemble models under time constraints, achieving ~95% accuracy and Top 3 leaderboard rank in a competitive hackathon.

##### **Smart Building Energy Optimization**, Evoastra Ventures Pvt Ltd

- Developed ML pipeline for anomaly detection using time-series data and LSTM-based models, enabling real-time monitoring and operational decision support.

##### **Oil Shock Simulation**, Zetheta Algorithms Pvt Ltd

- Designed a multi-variable time-series simulation system modeling real-world shocks using engineered features and statistical methods, enabling scalable scenario analysis and data-driven decision support.

##### **UIDAI Hackathon**, Unique Identification Authority of India

- Processed large-scale structured datasets and applied clustering with feature engineering to identify behavioral patterns, supporting scalable insights for system load optimization and resource planning.
